

The legal framework and the market

Cecilia Solér

Bianca Koroschetz, PhD student

Theoretical framework - antifouling market practice

- Observations at Swedish and German marinas
- Differences in waste management, design of marinas and enforcement
- Enforcement in Germany: Antifouling-product is a hazard substance (TRGS: Technische Regeln für Gefahrstoffe=Technical Rules for hazard substances)

§ 324 StGB Water pollution, §324a StGB Soil contamination, §326 StGB forbidden handling with dangerous waste

(StGB=Strafgesetzbuch=criminal code)
